Professional Summary

BCA graduate with a strong foundation in technical troubleshooting, Linux, networking, operating systems, Python, SQL, and MySQL. Hands on experience through internships and projects involving application development, database operations, debugging, and resolving application and connectivity issues. Familiar with IT support concepts and currently building knowledge in cloud computing, incident management, and ServiceNow. Strong analytical and communication skills with a willingness to learn and work in a shift based technical support environment.

Education

- **Bachelor of Computer Applications**
Nagarjuna College of Management Studies, Chikkaballapura
2024-2026 | **CGPA:9.4**
- **Commerce**
Blooms PU College, Bagepalli
2023-2024 | **CGPA:9.6**

Technical Skills

- **Operating Systems:** Linux, Windows, OS Installation & Configuration
- **Networking:** TCP/IP, IP Addressing, DNS, DHCP, HTTP/HTTPS, Basic Network Troubleshooting
- **Cloud & IT Infrastructure:** Cloud Computing Fundamentals, Virtualization Fundamentals, IT Infrastructure Fundamentals
- **Programming & Scripting:** Python, SQL, Shell Scripting, Java (Basics)
- **Databases:** MySQL, SQLite, CRUD Operations, Database Connectivity, SQL Queries
- **Technical Support:** Hardware & Software Troubleshooting, Application Debugging, System Configuration, Printer Configuration
- **Tools:** Git, GitHub, MySQL
- **IT Operations:** Incident Management Fundamentals, ServiceNow Fundamentals
- **Soft Skills:** Problem Solving, Analytical Thinking, Communication, Team Coordination.

Professional Experience

Python Developer Intern Besant Technologies, Bangalore | 2026

- Developed Python scripts for backend automation and data processing tasks
- Designed and implemented MySQL database queries for CRUD operations, data retrieval, and reporting
- Performed database connectivity troubleshooting and query optimization
- Built and maintained Python applications integrated with MySQL database

AI Powered Full Stack Intern Mevi Technologies, Bangalore | 2026

- Worked on AI powered full stack development using HTML, CSS, JavaScript, Bootstrap, and Django (Python).
- Built basic CRUD applications and handled database operations (MySQL/SQLite).
- Gained hands on exposure to data analytics, data visualization, and ML fundamentals.
- Learned image processing basics, AI and deep learning fundamentals.

Software Development Intern Sphereworks Inc, Bangalore | 2025

- Working directly under the founder on real internal tools and automation projects.
- Writing and maintaining Python scripts for daily operations.
- Learning production level coding, code reviews, debugging, and deployment workflow.
- Contributing to team discussions and feature planning .
- Gaining hands on experience in building reliable, clean, and scalable code.

Key Projects

Resume Analyzer with AI

- Developed a web application using Django (Python) that allows users to upload resumes and receive AI powered analysis
- Implemented file upload functionality, resume parsing, and intelligent suggestions for improvements
- Integrated AI for providing feedback on skills, experience, formatting, and ATS compatibility

EduAI Project

- Built a web-based AI Study Mentor website using Django (Python) and MySQL database.
- Users can ask questions and get AI-powered explanations for their studies.
- Implemented basic features like user registration, asking questions, and generating PDF reports.
- Worked on debugging, database management, and maintaining the website.

Certifications & Training

- SQL: Besant Technologies.
- Computer Hardware Repair Techniques: Mind Luster
- Cloud Computing: Mind Luster.
- Cyber Security: International Webinar.
- Full Stack Development: Mevi Technologies.

Additional Strengths

- **Problem Solving:** Strong troubleshooting skills with ability to diagnose and resolve hardware, software, and network issues efficiently
- **Community Impact:** Delivered cybersecurity awareness training to rural communities
- **Languages:** English (Professional), Hindi (Native), Kannada (Native), Telugu (Conversational)
